

The University of Kerala delegation started its academic expedition to Cuba with a visit to the office of His Excellency the Ambassador of India to Cuba, Mr. Armstrong Changsan today. We have been in touch with him for the past three weeks, who has proactively supported and arranged meetings with officials of universities and research institutes in Cuba. The Ambassador was also gracious enough to make the official release of CLAS (Centre for Latin American Studies) Handbook 2025 at the Indian embassy in Havana.
