Phy/ 316 /2018

16-01-2018

Quotations are invited for the supply and installation of the following equipment for research purpose in **two-bid mode**.

VACUUM OVEN

Vacuum oven, unlike general-purpose oven, dries samples without oxidation and residue. Samples can be dried in absence of atmosphere (vacuum condition) or presence of inert atmosphere (argon or Nitrogen) using vacuum oven.

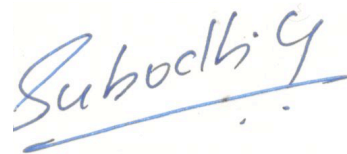

The design should comprise heat resistant chamber fabricated with stainless steel, and provided with two numbers removable shelves. The chamber should be integrated with a vacuum gauge and suitable nozzles, a digital indicating PID Temperature Controller.

No	Item	Description/Remarks
1	VACUUM OVEN	<ol style="list-style-type: none">1. Working chamber Dimensions: 250 mm × 250 mm Depth or larger.2. No of Trays: Minimum 2 trays3. Maximum Temperature: $\geq 300^{\circ}\text{C}$4. Maximum Vacuum: -760mm Hg or better5. Temperature control: By PID Temperature Controller6. Power Rating: approximately 3.5 kW7. Operating Voltage: 230 Volts, 1 Phase, AC <p>Remarks</p> <p>Vacuum Pump: The unit must contain a Double Stage Rotary Pump, gauge, and the capacity should be 100 litres or higher. Input voltage: 230 Volts, Single Phase, AC</p>

Quotes should be inclusive of the cost, freight, taxes, etc. Terms and conditions of warranty should be clearly mentioned. Items should be delivered at the Department of Physics. The quotes should be valid for at least 120 days. **Please quote your technical bid and price bid separately.**

The quotations should reach **“Dr. Subodh G, Head, Department of Physics, University of Kerala, Kariavattom, Thiruvananthapuram, Pin- 695 581, Kerala on or before 29-01-18 3 PM.**
